Traffic Info.

Radio traffic information (not available in Australia)

Blank

- * To "preset" a station, tune in to selected frequency and press and hold on selected button.
- * For radios fitted with a 10mhz expander box, add 20mhz to the displayed frequency to determine the actual radio frequency.

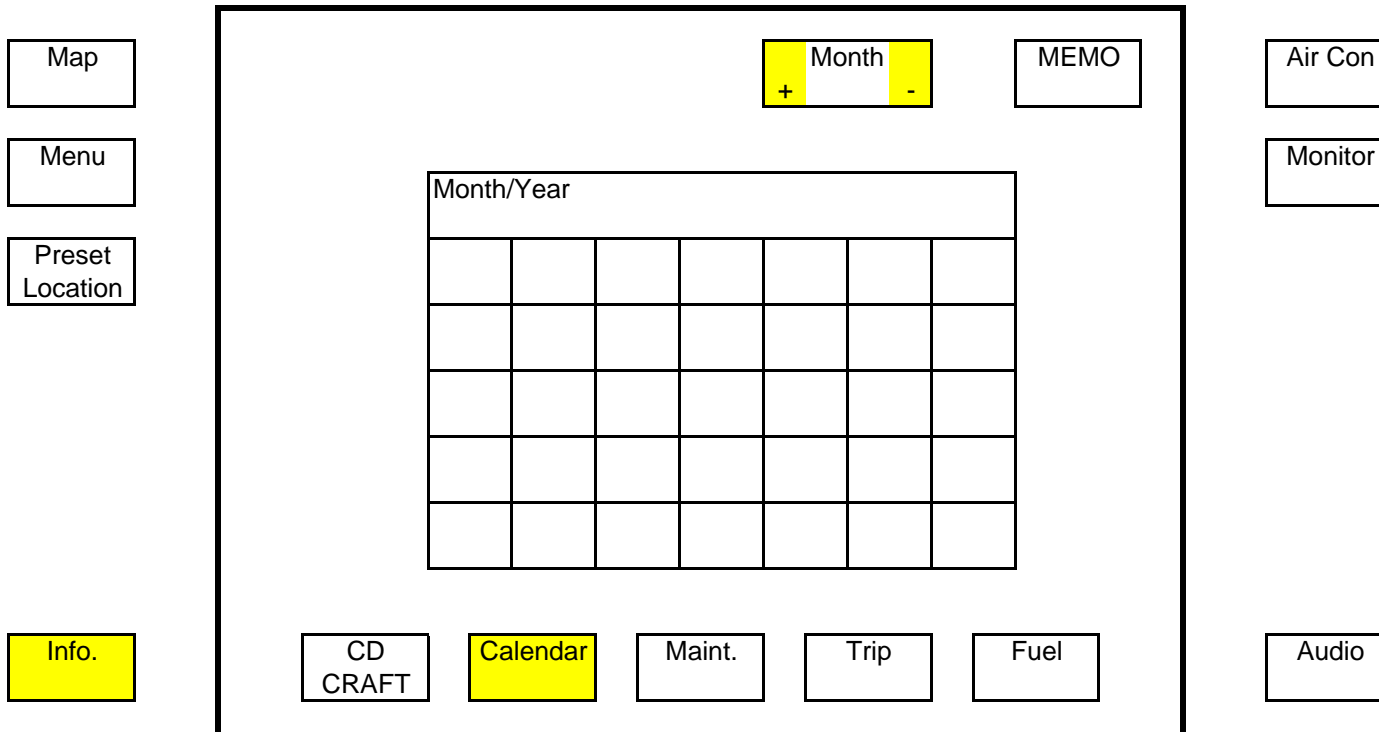

→ **Sound Level**

Note: Same screen available for CD or tape.
 Press DSP selection once for ON, press again for OFF.
 Press EQ to select preset tone (1 to 5 presets).
 LEVEL is to adjust the level of DSP

Note: Balance and Fade not available with DPS selected.

To set alarm, press "MEMO" then select MONTH by pressing + or -
 Note: The MEMO function will not appear unless the vehicle is stationary.
 Note: "CD CRAFT" is not available.
