

## FRONT WIPER DEICER SYSTEM

### DESCRIPTION

The front wiper deicer system uses a heater element in the front windshield glass to help to deice frozen front wipers.

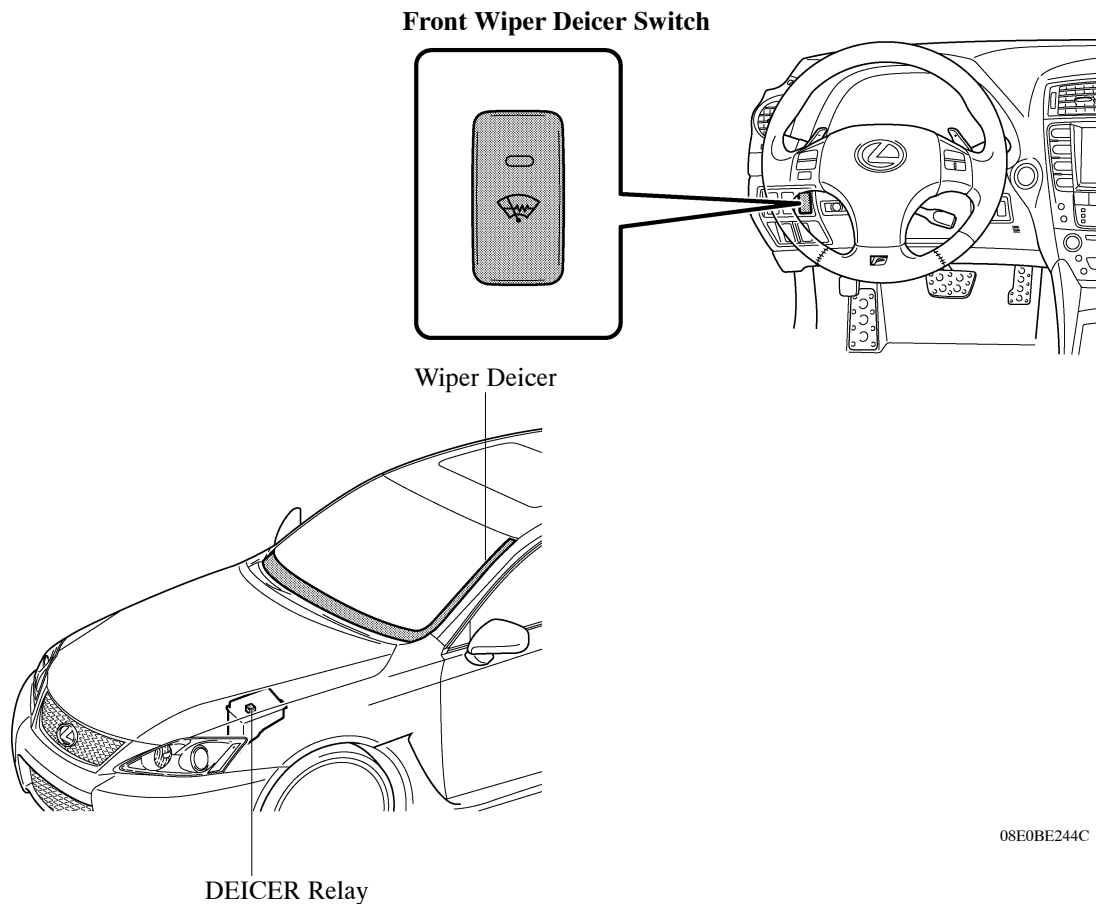

- This system is activated when the engine switch is turned IG-ON, and front wiper deicer switch is pushed. This switch is provided with a timer function to keep the deicer ON for approx. 15 minutes.
- The front wiper deicer system is standard equipment on all models.
